This login guide provides the specific
login information for your device.
Please refer to the manual
for all information on using
myDiabby Healthcare*.

omnipod®
INSULIN MANAGEMENT SYSTEM

Sharing pump data with the myDiabby application with a phone

Equipment needed

The **Android
smartphone** on
which the **myDiabby
application** has
been downloaded,
and patient account
logged in.

The Omnipod
PDM.

An adapter to connect
a USB cable to the
smartphone.

The Omnipod
PDM USB cable.

How to proceed

1 Connect in this order: **1
- the cable to the phone
with the adapter
2 - the cable to the PDM**

2 **The PDM turns
on and emits
a beep.** It is
preparing
the data for
transfer.
Please wait.

3 **The PDM emits 4 times 2 beeps.** It is ready
to transfer data to the phone.

4 **Unlock the smartphone screen.** Launch the
myDiabby application and **data sharing is
initiated.** The **cable symbol flashes** and a
loading bar appears during data sharing.
Please wait.

Caution:
Do not disconnect the cable from the meter or phone during
sharing data. If there is a lot of data to share, the transfer may
take several minutes.

5 **The pump data is displayed on myDiabby!**
You can now disconnect the phone and the PDM.

# Sharing pump data with the myDiabby application with a computer

1 **Download myDiabby Uploader** for Windows or Mac at www.mydiabby.com/uploader. Install myDiabby Uploader on your computer.

MyDiabby Uploader is a small software program that you can install on your computer to **upload data from blood glucose meters, blood glucose monitors and insulin pumps to your myDiabby Healthcare account**.
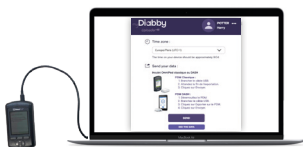

2 **Log in with your usual myDiabby Healthcare login details** and follow the software instructions.
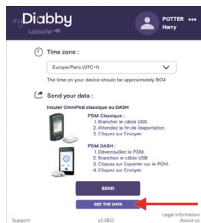

3 **Select the device(s) you wish to download** and **Confirm**

4 **Connect the PDM, wait until you hear 2 X 4 "beeps",** then click on the **"Send"** button

5 **The data will now load on myDiabby.** Once the loading is complete, to access the data on myDiabby, click on the **"View Data"** button

6 **The results are now available on myDiabby Healthcare** (basal, bolus rates, blood sugar levels, etc.)
