## Linking the meter with the myDiabby application

When you link your blood glucose meter to the myDiabby application, the date and time are automatically set on the meter based on the date and time on the phone.

- 1 **Enable Bluetooth** on the smartphone
- 2 Log in to the **myDiabby application** and open the **"My connected objects"** tab
- 3 Select **"Connect my capillary blood glucose meter"**, then select your meter from the list

- 4 Click on the **"Connect my meter"** button

- 5 Turn on the OneTouch Verio Flex reader

- 6 **Activate Bluetooth on the meter by pressing the ▲ and OK buttons simultaneously.** The Bluetooth logo  appears on the screen of the meter. (If the Bluetooth symbol  was already lit on the meter, you can skip to step 6).

7 On the myDiabby application, click on the "Find my meter" button

8 The meter appears on the screen. Click on "Add".

9 Enter the 6-digit code that appears on the meter's screen in the application, then confirm.

## Daily use

1 Test your blood sugar level with the meter as usual.

2 Once the blood sugar result appears on the meter screen, remove the strip from the meter and open the myDiabby application on the phone near the meter.

*Make sure Bluetooth is enabled on the smartphone*

3 The blood sugar result is automatically sent to the myDiabby application!  
*If you have specified the before/after meal symbol on the meter, it will be transferred to myDiabby.*

### If you have gestational diabetes:

If you have gestational diabetes: once the blood sugar level appears on the myDiabby application, **CHECK** or **VERIFY** the time of day so that the result is in the right place in the logbook. You can **add comments** or insulin doses.
